# Introduction

This document is about the **Denbighshire Community Endowment Fund**.

It says:

- What the aim of the fund is.

- Who can apply.

- How much you can apply for.

- How to apply.

# Fund aims

This fund is for educational projects. It is to support:

- Projects that support the education of school aged children and young people.

- Projects that support the education of children before they start school.

- School projects that support children and young people to learn about health.

- Projects that support children and young people to achieve more in education and continue learning.

- Projects that support talented individual students. For example, through **scholarships** and prizes for achieving in education. It can also fund travel, sport and materials. A **scholarship** is when someone is given funding to study.

# How much can you apply for?

You can apply for up to £1 thousand pounds a year, for up to 3 years.

# Who can apply?

- Groups and organisations in Denbighshire.

- Running projects that are not funded by the local authority. This could be things like after school clubs, breakfast clubs, gardening projects.

We prefer applications that show exactly how they meet the aims of the Fund. And who have not had this funding before.

# How to apply

You must fill out an online application form. You can get this on our website: [communityfoundationwales.org.uk/grants/denbighshire-community-endowment-fund](http://communityfoundationwales.org.uk/grants/denbighshire-community-endowment-fund)

## Important things to know:

- We **cannot** pay for anything that has happened before:

- We send you an offer letter.

- You send us a signed copy of the terms and conditions.

- You cannot use this fund to support other groups and charities.

- You must spend all the money within 1 year of getting our offer letter.

- You must show clearly in your application why this money is needed.

# Funding for more than 1 year

You can apply for up to 3 years of funding from this fund. We call it **Multiple Year Funding**.

You can still use this funding for 1 year projects. And for buying small items and things you need that meet the aims of this fund.

If you want funding for 3 years, you will need to fill out the extra section of the application form.

You need to explain how you plan to grow your project over the 3 years.

If you are not awarded 3 year funding, you may still get funding for 1 year.

# Core funding

Core funding covers the running costs of your organisation. It can be spent on things like staff wages and bills.

It can be hard to find core funding.

Groups can now apply for funding towards their core costs for up to 3 years. As long as:

- You can provide your accounts for the last 12 months.

- The amount you apply for is less than half of your yearly income. For example, if you want to apply for 1 thousand pounds a year, your income must be at least 2 thousand pounds a year.

# The Wellbeing of Future Generations Act 2015

This is a law about improving life in Wales for people now, and in the future.

To achieve the aims of this law, we must:

- Think about how our decisions might impact people in the future.

- Work better with people, communities, and other organisations.

- Work together to stop problems like **poverty**, **health inequality** and **climate change**.

**Poverty** is when someone does not have enough money to live on.

**Health inequality** means people don't always get equal chances to have good health. For example, maybe because of where they live.

**Climate change** means the change of the earth's temperature and weather conditions. It is caused by things like oil and gas.

We want organisations to work better together.

We want organisations to think about how their work fits in with other work that is going on.

In your application please think about these things.

Please explain your plans for now, and the future.  
We want to see how you plan to work with others.

# Hard words

## Climate change

This means the change of the earth's temperature and weather conditions. It is caused by things like oil and gas.

## Health inequality

Health inequality means people don't always get equal chances to have good health. For example, maybe because of where they live.

## Poverty

This is when someone does not have enough money to live on.
