# Core funding

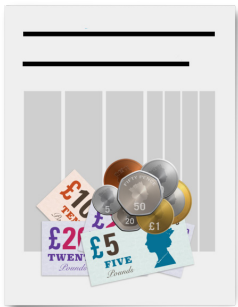

Core funding covers the running costs of your organisation. It can be spent on things like staff wages and bills.

It can be hard to find core funding.

Groups can now apply for funding towards their core costs for up to 3 years. As long as:

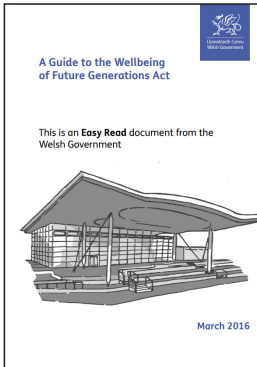

- You can provide your accounts for the last 12 months.

- The amount you apply for is less than half of your yearly income. For example, if you want to apply for 1 thousand pounds a year, your income must be at least 2 thousand pounds a year

# The Wellbeing of Future Generations Act 2015.

This is a law about improving life in Wales for people now, and in the future.

To achieve the aims of this law, we must:

- Think about how our decisions might affect people in the future.

- Work better with people, communities, and other organisations.

- Work together to stop problems like poverty, health inequality and climate change.

**Poverty** is when someone does not have enough money to live on.

**Health inequality** means people don't always get equal chances to have good health. For example, maybe because of where they live.

**Climate change** means the change of the earth's temperature and weather conditions. It is caused by things like oil and gas.

We want organisations to think about how their work fits in with other work that is going on.

In your application, please think about these things.

Please explain your plans for now, and the future.  
We want to see how you plan to work with others.
